

Whole-transcript analysis

The following publications and articles demonstrate the advantages of GeneChip® Gene 1.0 ST and Exon 1.0 ST Arrays for whole-transcript analysis. The uses described in these reference articles have not been approved or cleared by the FDA.

2010

Aghajanova L., *et al.* The protein kinase A pathway-regulated transcriptome of endometrial stromal fibroblasts reveals compromised differentiation and persistent proliferative potential in endometriosis. *Endocrinology* **151**(3):1341-55 (2010).
