

The following features are present in the vector based on the nucleotide sequence.

T7 promoter .....	1-18
EMCV IRES.....	33-535
Myc tag.....	539-568
MCS .....	569-646
Poly A.....	660-689
T7 terminator .....	718-765
Ampicillin gene (bla, Am <sup>R</sup> ).....	1726-2583
f1 origin .....	3023-3478
