

The following features are present in the vector based on the nucleotide sequence.

T7 promoter .....	1-18
EMCV IRES.....	33-535
MCS .....	533-610
Myc tag.....	611-640
Poly A.....	654-683
T7 terminator .....	712-759
Ampicillin gene (bla, Am <sup>R</sup> ).....	1721-2578
f1 origin.....	3017-3472
