

The following features are present in the vector based on the nucleotide sequence.

T7 promoter .....	1-18
EMCV IRES.....	33-535
HA tag.....	539-565
MCS .....	566-643
6xHis tag .....	644-661
Poly A.....	675-704
T7 terminator .....	733-780
Ampicillin gene (bla, Am <sup>R</sup> ).....	1742-2599
f1 origin.....	3038-3493
