Get the Equipment You Need Today and Pay NO Interest for 12 Months

Program Details

With our 12 month, no interest financing, your structured monthly payments are equal to the total cost of the equipment, and at the end of the term you own the equipment.

Tax & Accounting Benefits

Current tax guidelines may offer distinctive reasons to finance your investment. Depending upon the lease you choose, your investment may also qualify for the latest government incentive of 50% Bonus Depreciation. This generous depreciation deduction allows you to write-off half of the value of the equipment for the first year, improving your overall cash flow by lowering your company's tax liability for the year. Your accountant or tax attorney can advise you.

Preserve Working Capital

Fixed monthly payments will help you lower your initial capital investment and optimize your cash resources for better budget forecasting, giving you the flexibility to reinvest the savings back into your business.

Trusted Resource

At Thermo Fisher Scientific, we understand your advanced technology and application requirements, as well as the business challenges you face when acquiring your critical assets. We are committed to your success and our finance professionals look forward to finding the right financing solution for your business.
