References: Luc-Screen® Firefly Luciferase Reporter Gene Assay System

Gene Expression Assay Applications

(transiently-transfected HEK293t human embryo kidney, TE671 human medulloblastoma, JEG-3 human placenta cell lines) PMID: 12082567

(transiently-transfected HEK293t human embryo kidney, JEG-3 human placenta cell lines; uses Phospha-Light™ assay for normalization of transfection efficiency) PMID: 16086313

(transiently-transfected HEK293t human embryo kidney, JEG-3 human choriocarcinoma placenta cell lines; uses Phospha-Light™ assay for normalization of transfection efficiency)

(transiently-transfected Drosophila Kc167 cells; also uses Galacto-Star™ assay for normalization) PMID: 16710294

(stably-transfected HC11 mouse mammary epithelial cells) PMID: 14605098

(transiently-transfected HEK293 cells) PMID: 11682624

(transiently-transfected HEK293t human embryo kidney, TE671 human medulloblastoma cell lines; uses Phospha-Light™ assay for normalization of transfection efficiency) PMID: 15128050
